

PRODUCT SPECIFICATION

SD9500

SLIM DUAL TAMPON &
SANITARY NAPKIN DISPENSER

The SD9500 Slim Dual Menstrual Care Dispenser is a space-efficient, wall-mounted solution designed for modern commercial and institutional restrooms. Its slim 3 3/8" profile and side-by-side configuration provide convenient dispensing of tampons and sanitary napkins while maintaining a clean, minimal appearance. The concealed magnetic closure eliminates the need for an external knob or keyed lock, and the dispenser accommodates standard, non-proprietary refill products.
